Jean-Guy ROUSSET

Rapid Application Developer.

P&PES (ATC)
POLAND

PROFESSIONAL BACKGROUND

With a strong background in experimental physics and mathematics I am used to analyze, process and create visualization of various data, I am oriented towards problem solving and finding innovative solutions to new situations. I am motivated by new challenges and can work either in a team or independently. In the last years, I have acquired skills in rapid application development (Mendix, Power platforms, Dynamics) in various projects.
